Secret Wars and Secret Policies in the Americas, 1842-1929-Friedrich E. Schuler 2011-04-16 The conflicts that culminated in the First and Second World Wars had their origins in the rise of imperial powers in North America, Europe, and Asia in the late nineteenth century and the imperialist quests for the resources of colonies and former colonies. American expansionists, encouraged by a growing U.S. Navy, met armed U.S. policies with demands of easy access to South America. Policy makers in the fledging regimes of Germany, Japan, Spain, and Italy relied on clandestine means to raid U.S. ambitions. In this original and thoroughly researched book, based on new sources from previously unused collections in Germany and Spain, Friedrich E. Schuler details their attempts to suborn ethnic groups within Latin America but also with the United States to establish ethnic “beachheads” that would serve to undermine U.S. interests. These deeply disturbing decades became central historical reference points for U.S. policy makers during World War II. Not surprisingly, though rarely covered in Latin American historiography, Latin-American makers, but also Spain, developed their own plans to exploit these imperial rivalries after World War I. The resulting intrigue and subterfuge revealed in this revisionist study add a fascinating new dimension to our understanding of transpacific and transatlantic politics during this critical period of world history.
